[%Rebate-15 Day or Net-30 Plan](#)

This is a **NEW** and innovative payment plan that we have adopted to help customers that normally want to pay their invoices NET-30; **BUT** are willing to save on future purchases by making their payments within the first 15 days of the invoice date.

We will put a **variable scale** rebate credit into your account – based upon your payment history, timeliness of the receipt of your payment, and if your payment is actually received within the first 15 day period of the INVOICE DATE.

The scale is variable and may change without notice – but IS based upon your payment history.

The better the payment history, the better the Rebate Credit. We issue a Credit Memo that can be included with future payments as credit towards a currently open invoice.

Credit can be applied to future invoices, special Sample Orders, Shipping/Handling Charges, etc.

There will not be any re-imburements paid for the credits – it must be used for payments future orders.

If you wish to sign up for this plan – simply file an [Extended Payment Plan Application](#) and check the appropriate box at the bottom of the page. If your payment history qualifies you, you will be enrolled in this plan.
